PROFESSIONAL SUMMARY

Senior Software Engineer with 7+ years of experience delivering production software across mobile, backend, web, and cloud environments. Strong Flutter/Dart and mobile engineering expertise, complemented by Full-Stack development with Python/FastAPI, JavaScript/TypeScript, Angular, REST APIs, WebSockets, JWT, and SQL/NoSQL. Experience across banking software, testing, CI/CD, cloud architecture and migration planning on GCP, AWS and Azure, with additional focus on AI Engineering and cloud-native AI systems.

CORE STACK

Software Engineering & Architecture: Clean Architecture, Design Patterns, Code Review, Refactoring, Debugging, Git, CI/CD.
Backend & APIs: Python, FastAPI, JavaScript, TypeScript, Angular, REST APIs, WebSockets, JWT.
Cloud & DevOps: GCP, AWS, Azure, Docker, Kubernetes, Azure DevOps, cloud architecture, migration planning.
AI & GenAI: OpenAI API, Codex, Gemini Enterprise Agent Development, responsible AI deployment fundamentals.
Mobile Engineering: Flutter, Dart, BLoC, Riverpod, Provider, Firebase, Kotlin, Swift, Platform Channels, Android/iOS.
Databases & Testing: SQL/NoSQL, SQLite, Pytest, Jest, Unit Testing, Integration Testing.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | EPAM | Jun 2025 - Present
• Develop and maintain production Flutter/Dart applications for banking solutions, delivering features and integrating REST APIs and WebSockets with BLoC and Riverpod.
• Perform testing, debugging, code review, refactoring, and CI/CD with Git/Azure DevOps; work with GCP/AWS and native Android/iOS integrations using Kotlin, Swift, and Platform Channels.

Semi Senior Flutter Mobile Developer | Periferia IT Group | Nov 2024 - Jun 2025
• Developed Flutter/Dart applications for Android/iOS with REST APIs, WebSockets, Firebase, SQLite, BLoC, Riverpod, Provider, testing, debugging, refactoring, Git, and Azure DevOps.

GCP Pre-Sales Engineer | Servinformación | Oct 2022 - Jan 2024
• Supported cloud solution design and architecture primarily on GCP, also working with AWS, Azure, Docker, Kubernetes, and SQL/NoSQL.
• Contributed to requirements analysis, troubleshooting, migration planning, and cloud architecture proposals for customer solutions.

Full-Stack Developer | EFFICODE | Feb 2018 - Sep 2022
• Developed mobile, web, and backend solutions with Flutter, Python/FastAPI, JavaScript/TypeScript, and Angular; integrated REST APIs, JWT, SQL/NoSQL, AWS, and Firebase.
• Implemented unit and integration tests with Pytest/Jest and performed debugging, code review, and refactoring to maintain software quality and maintainability.

SELECTED PROJECTS

MAYA - AI Engineering • IP Global Commerce - Full-Stack Engineering • MusicLinks Licensing - Backend / Licensing

EDUCATION & SELECTED CERTIFICATIONS

Education: Systems Engineering - Universidad de La Guajira | Graduated Dec 2024
OpenAI: Codex Deployment Practitioner | API Deployment Practitioner | Technical Practitioner | Cyber Solutions Practitioner | Cyber Deployment Practitioner
Google: Certified Partner Specialist - Gemini Enterprise Agent Development (2026)
Google Cloud Associate Cloud Engineer - Historical credential, expired Mar 2026
Google Cloud Digital Leader - Historical credential, expired Jan 2026
